COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

INTRODUCTION

Management Discussion and Analysis (“MD&A”) focuses on significant factors that have affected Columbus Gold Corporation (the “Company” or “Columbus Gold”) and its subsidiaries’ performance and such factors that may affect its future performance. In order to better understand the MD&A, it should be read in conjunction with the interim consolidated financial statements for the period ended March 31, 2011 and the audited annual consolidated financial statements for the year ended September 30, 2010.

The financial information in this MD&A is derived from the Company’s consolidated financial statements which are prepared in accordance with Canadian generally accepted accounting principles. The significant accounting policies are outlined within Note 2 to the consolidated financial statements of the Company. The Company’s reporting currency is Canadian dollars. The effective date of this Management Discussion and Analysis is May 28, 2011.

Additional information about the Corporation and its business activities is available on the Company’s website at www.columbusgoldcorp.com or on SEDAR at www.sedar.com.

CAUTION REGARDING FORWARD LOOKING STATEMENTS

This document contains certain forward-looking information and forward-looking statements, as defined in applicable securities laws (collectively referred to as “forward-looking statements”). Often, but not always, forward-looking statements can be identified by the use of words such as “plans,” “expects” or “does not expect,” “is expected,” “planned,” “budget,” “scheduled,” “estimates,” “continues,” “forecasts,” “projects,” “predicts,” “intends,” “anticipates” or “does not anticipate,” or “believes,” or variations of such words and phrases, or statements that certain actions, events or results “may,” “could,” “would,” “should,” “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any of our future results, performance or achievements expressed or implied by the forward-looking statements; consequently, undue reliance should not be placed on forward-looking statements.

These risks, uncertainties and other factors include, but are not limited to: changes in Canadian/US dollar exchange rates; our strategies and objectives; our tax position and the tax and royalty rates applicable to us; our ability to acquire necessary permits and other authorizations in connection with our projects; risks associated with environmental compliance, including without limitation changes in legislation and regulation, and estimates of reclamation and other costs; our cost reduction and other financial and operating objectives; our environmental, health and safety initiatives; the availability of qualified employees and labour for our operations; risks that may affect our operating or capital plans; risks created through competition for mining properties; risks associated with exploration projects, and mineral reserve and resource estimates, including the risk of errors in assumptions and methodologies; risks associated with our dependence on third parties for the provision of critical services; risks associated with non-performance by contractual counterparties; risks associated with title; and general business and economic conditions.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

Forward-looking statements are based on a number of assumptions that may prove to be incorrect, including, but not limited to, assumptions about: general business and economic conditions; the timing of the receipt of required approvals for our operations; the availability of equity and other financing on reasonable terms; power prices; our ability to procure equipment and operating supplies in sufficient quantities and on a timely basis; our ability to attract and retain skilled labour and staff; the impact of changes in Canadian/US dollar and other foreign exchange rates on our costs and results; market competition; and our ongoing relations with our employees and with our business partners and joint venturers.

We caution you that the foregoing list of important factors and assumptions is not exhaustive. Events or circumstances could cause our actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward-looking statements. We undertake no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, whether as a result of new information or future events or otherwise, except as may be required under applicable laws.

DESCRIPTION OF BUSINESS

The Company was incorporated on May 14, 2003 under the laws of the Province of Saskatchewan, Canada and continued in British Columbia, Canada on December 29, 2003. The Company changed its name from Purple Vein Resources Ltd. to Columbus Gold Corporation effective December 20, 2004. On May 24, 2006, the Company completed its Initial Public Offering (“IPO”) and obtained a listing on the TSX Venture Exchange (“TSX-V” or the “Exchange”) as a Tier 2 mining issuer under the trading symbol **CGT-V**.

The Company’s principal business activities are the acquisition, exploration and development of mineral properties, with gold as a principal focus. Until recently, all of the Company’s mineral properties were located in the United States. In December 2010, the Company acquired a project with a 1.9 million ounce inferred gold resource in French Guiana. The Company is in the process of exploring and developing its mineral properties but has not yet determined whether the properties contain ore reserves that are economically recoverable. The Company maintains active generative (prospecting) and evaluation programs and, as a key element of its strategy, broadens exposure, minimizes risk and maintains focus on high priority prospects while seeking industry finance through joint ventures on selected projects.

RESULTS OF OPERATIONS

Current Quarter

The Company incurred a loss of \$892,158 during the current quarter versus a loss of \$723,555 in the same period last year. Expenses increased by 92% to \$664,699 over the prior period due to a number of factors including an increase hiring as evidenced by the increase in investor relations expense from \$16,243 in the prior period to \$78,235 in this quarter. Additionally, travel expense increased from \$3,015 in the prior year period to \$34,869 in this quarter as the Company increased its presence at investor relations conferences.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

Year-to-Date

The Company incurred a loss of \$904,531 during the current period versus a loss of \$891,785 in the same period last year. Most expenses were in line with the prior year period with a couple of exceptions. There was an increase in administration expense from \$59,630 to \$88,722 or 49.1%, and an increase in investor relations expense from \$22,513 to \$128,392 due to a new position being created.

On March 28, 2011, the Company announced the appointment of Mr. Andy Wallace as President. Mr. Wallace is the principal of Cordex Exploration LLC ("Cordex"), a related party, and is considered by many in the mining industry to be one of the most successful gold exploration groups in the United States. Cordex was founded by the John Livermore, who discovered the Carlin Mine in Nevada and a new type of gold mineralization that is now referred to as "Carlin-Type". The discovery of the Carlin Mine transformed the gold mining industry in the United States and perhaps the world. A flurry of exploration for Carlin-Type gold deposits ensued and as additional discoveries were made, the Carlin Trend of Nevada became the most prolific goldfield in the Western Hemisphere and the second largest gold depository in the world. Today the Carlin Trend reportedly hosts more than 120 million ounces of known proven and probable reserves and has produced approximately 60 million ounces of gold in past production and Nevada is the largest gold producing area in the world per square kilometer.

MINERAL PROPERTIES

PAUL ISNARD GOLD PROJECT

Columbus Gold has entered into a definitive option agreement (the "Agreement") to acquire 100% interest in the Paul Isnard gold project in French Guiana, a Department of France. In connection with this proposed acquisition, the Company has filed a NI 43-101 compliant technical report which includes the 1.9 million ounce Montagne d'Or gold deposit. The technical report was completed in January 2011 and updated in February by SRK Consulting and includes an Inferred resource estimate of 1.9 million ounces gold from 36.7 mt grading 1.6 gpt. The Montagne d'Or gold deposit is open along strike and at depth.

The Agreement calls for the Company to, over a 2 year period, issue shares to the vendor, Auplata SA ("Auplata"), totalling 49% of Columbus Gold's issued and outstanding share capital. In addition, over a 2 year period, the Company must spend \$7 million on project expenditures and, in the two years thereafter complete a Bankable Feasibility Study. The Agreement governing the terms of the proposed acquisition also contains additional conditions precedent including, among other things: obtaining a positive title opinion in connection with the Paul Isnard property; the completion of a US\$2 million fundraising by Columbus Gold; non-objection by the French Government; and stock exchange, shareholder, and regulatory approvals.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

In connection with its due-diligence, Columbus Gold has met with key government officials in both France and French Guiana and reviewed the French Mining Code and proposed new mining legislation which is in the final stages of consultation, and is expected to be submitted for vote by the Supreme Court of France in 2011 or 2012, known as the *Scheme of Mining Orientation and Management of French Guiana*, or SDOM.

The dual objectives of the SDOM are to encourage economic development in French Guiana while protecting its environment. In part to accomplish these goals, the SDOM provides increased security of land tenure and clarifies mineral development guidelines, and assigns lands in French Guiana to 1 of 5 classification requiring varying levels of environmental and other obligations for mining companies. Pursuant to the current draft of SDOM, the Montagne d'Or gold deposit lies within an area classification proposed to allow open-pit mining under certain conditions that include: the requirement to demonstrate the identification of a viable mineral deposit; the completion of an Environmental Impact Study and Reclamation Plan; and possible additional reclamation, or environmental investigations as may be required for the public interest, on or off site.

The Paul Isnard project is located approximately 180 km west of the capital city of Cayenne, French Guiana and consists of eight mining permits totaling 135 km² and a pending application for two additional mining permits totaling a further 14.4 km². The Paul Isnard project area has been an important centre of alluvial and colluvial gold mining operations since the late 19th century.

NEVADA EXPLORATION HIGHLIGHTS

In 2010 Columbus Gold acquired 4 strategically located gold properties in Nevada from prospecting activities, 2 of which are located on the Battle Mountain Gold Trend and 2 on the Walker Lane Gold Trend, for a total of 22 gold properties situated in Nevada. The Company also optioned 4 of its properties into Joint Venture (JV) agreements for a total of 12 JV'd properties. In addition, Columbus Gold completed extensive mapping, sampling and geophysical work to delineate targets in preparation for an aggressive drilling campaign in 2011 planned on as many as 11 of its Nevada gold projects.

DRILLING PLAN FOR COLUMBUS GOLD'S NEVADA PROJECTS

2011 Drilling Plan

Property Name	Drill Holes Planned	Feet (meters)
Weepah	20	10,000 (3,050m)
Eastside	20	10,000 (3,050m)
Petes Summit	10	5,000 (1,500m)
Browns Canyon	15	7,500 (2,300m)
Summit*	3	6,500 (1,980)
Guild*	24	20,000 (6,100m)
Overland Pass*	24	20,000 (6,100m)
Stevens Basin*	10-12	13,100 (4,000m)
Golden Mile*	6	3,000 (900m)
Utah Clipper/Crestview*	1	1,600 (500m)
White Horse Flats*	10-12	<u>6,600 (2,000m)</u>

COLUMBUS GOLD CORPORATION

FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

	Total	103,300 (31,480m)
--	--------------	--------------------------

* To be drilled by a Columbus Gold JV partner.

Highlights of notable projects where drilling is planned in 2011:

Stevens Basin

Stevens Basin is located on the Battle Mountain Gold trend near Barrick Gold's Archimedes open pit gold mine. Sampling by Columbus Gold revealed a gold anomaly of about 760 m in length and 30-90m in width with a grades as high as 2.5 g/t. The anomalous zone is still open in several areas. An air magnetic geophysical survey and a detailed ground gravity geophysical survey (400 stations) were completed in the fall of 2010 and this data is being used to optimize drill sites for a phase I approximate 6,600 feet (2,000m) drill program of 10-12 holes planned as early in 2011 as weather permits. This could be followed by a phase II program of the same size later in the year. Navaho Gold is earning an initial 51% interest in the Steven's Basin project by making \$3 million in expenditures.

Browns Canyon

The Browns Canyon Project is located approximately 20 km (12 miles) west of Barrick Gold's Archimedes open pit gold mine, in the highly prospective Battle Mountain Gold Trend known to contain over 100 million ounces of Gold with some two dozen gold mines throughout the trend. Recent sampling on the property yielded gold values up to 3 g/t along a zone of silicification, sparsely exposed through cover, with a strike length of 2,000 meters. The mineralization is Carlin-style, and geologic mapping and further sampling is underway. Seven widely-spaced historic drill holes are present. Most of the strike length of the mineralized zone is untested by drilling. Drilling is warranted by the results to date and is planned for late summer of 2011.

Summit

The Summit property is strategically positioned along strike and approximately 4,000 feet (1.2 km) from the northern end of the Long Canyon gold deposit of Fronteer Gold Inc. (where ongoing drilling continues to confirm the presence of high-grade oxide gold mineralization with a recent drill intercept result of 12.3 g/t over 50.4 metres announced on November 15th, 2010). Work by Columbus Gold's JV partner Agnico-Eagle in 2010 included seventy nine rock chip samples and three diamond drill holes, with a total footage of 6,392 feet (1948 m). Anomalous gold values were reported in the drill results from a shear zone stratigraphically above the known favorable horizon of gold mineralization, and from a footwall of a bedding parallel structure. An anomalous mercury zone was encountered present in a karst breccia interpreted to be important to host Carlin-type gold mineralization on the nearby properties in the Pequop Mountains. Agnico-Eagle previously had performed geological mapping, collected 2,500 soil samples and 70 stream sediment samples, and completed seven rotary holes totalling 6,040 ft (1,830 meters) in their initial drilling program. Agnico-Eagle has indicated that they will continue their option to earn an interest in Summit and more drilling is planned for 2011. Agnico-Eagle can earn an initial 51% interest in Summit by making \$3 million in exploration expenditures.

Weepah

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

The Weepah property is located within the Walker Lane Gold Trend. It extends from historical mining, where recent production came from an open pit. New rock chip sampling yielded values up to 10.29 g/t (0.30opt) gold over 3.6m (12 ft), and 17.14 g/t (0.50 opt) gold over 1.8m (6 ft). The favorable geology extends to the south for 1,200 -1,500 metres (4,000-5,000 ft). Detailed mapping, a detailed ground magnetic survey, and 10 line km of Controlled Source Audio-frequency Magnetotellurics (CSAMT) geophysical surveying has yielded targets for a drill program consisting of 10,000 ft (3,050M) of drilling in approximately 20 RC drill holes. The drill program is permitted and began in January.

Gold was encountered in four of the first five holes; significant intercepts include:

- Drill hole WP-5 intersected 17.4 m (55 ft) of 1.12 g/t (0.033 opt) gold from 7.6-25 m (25-80 ft) depth, including 3.3 m (10 ft) of 4.03 g/t (0.12 opt) gold; and
- Drill hole WP-2 intersected 7.8 m (25 ft) of 2.34 g/t (0.068 opt) gold from 118-125.8 m (390-415 ft) depth, including two separate 1.6 m (5 ft) intervals of 4.30 g/t (0.126 opt) and 4.95 g/t (0.145 opt) gold.

Eastside

The Eastside property is also located within the Walker Lane Gold Trend. Recent sampling (530 samples) of outcrop over 900 m (3,000 ft) of strike length along a zone of silicified breccia yielded gold values up to 7.95 g/t (0.23 opt). An exploration program consisting of 10,000 ft (3,050M) of RC drilling in 20 holes is permitted and planned for the spring of 2011.

INVESTMENT IN COLUMBUS SILVER CORPORATION

At December 31, 2010 the Company owns 4,020,000 common shares of Columbus Silver Corporation. The Company recorded its investment in Columbus Silver on a consolidated basis until August 28, 2009 at which point the Company's ownership interest declined from 35.7% to 18.5% as a result of share issuances by Columbus Silver. Commencing August 28, 2009, the Company's investment in Columbus Silver was determined to have converted from a controlled entity to an equity investment. As the Company still exerts significant influence over Columbus Silver, the Company now accounts for its investment using the equity method.

The Company's interest in Columbus Silver was diluted as a result of an equity financing completed by Columbus Silver on August 28, 2009. The result of this loss of control was a dilution gain of \$776,580 which was recorded in 2009 fiscal year.

At March 31, 2011, the Company held a 12.5% direct interest and a fully diluted interest of 26.7% assuming the convertible notes were converted into shares of Columbus Silver.

CAPITAL RESOURCES

In May and July 2010, the Company received approximately \$2.9 million from non-brokered private placements consisting of 9,735,750 units at \$0.30 per unit. Each unit is comprised of one common share and one transferable common share purchase warrant; each warrant is exercisable for a period of 18 months, with an exercise price per warrant share of \$0.30 for the first 12 months increasing to \$0.35 for the final 6 months of the exercise period.

The Company is currently carrying two promissory notes with a combined face value of \$1,337,250 from Columbus Silver Corporation. They carry simple interest at 5% and are due and payable on August 2012. The notes have a conversion option at \$0.25 per share at the option of the holder.

In December, the Company granted incentive stock options to certain of its newly appointed President and officers, directors, consultants, employees, and service providers, to purchase up to an aggregate of

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

1,208,000 common shares exercisable on or before December 6, 2015 at a price of \$0.50 per share. In accordance with TSX Venture Exchange rules, the aforementioned 1,208,000 stock options are subject to TSX Venture Exchange approval and approval at the Company's next Annual General Meeting of Shareholders, the date of which meeting has not been set. These options may not be exercised until such approvals are obtained, if at all.

LIQUIDITY

The Company does not currently own or have an interest in any producing mineral properties and does not derive any revenues from operations. The Company's activities have been funded through equity financing and the Company expects that it will continue to be able to utilize this source of financing until it develops cash flow from operations. The Company has been successful in its fund raising efforts in the past, but there can be no assurance that the Company will continue to be successful in the future. If such funds are not available or other sources of finance cannot be obtained, then the Company will be forced to curtail its activities to a level for which funding is available and can be obtained.

During the period, the Company's working capital position increased to \$3,399,917 which included a cash balance of \$2,865,157. At March 31, 2011, the Company's working capital balance included a cash balance of \$2,110,565 and a term deposit of \$754,592.

The Company experienced a cash outflow from operations of \$426,426 and invested \$585,393 in cash to acquire and explore its mineral properties. As at March 31, 2011, the Company had total assets of \$9,562,957 and the principal non-cash assets of the Company were its mineral exploration properties in Utah, Nevada, New Mexico, Arizona, and French Guiana with a carrying value of \$3,533,919 representing 37.0% of its total assets.

The Company had no long term debt at the end of the period.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

OFF-BALANCE SHEET ARRANGEMENTS

The Company did not enter into any off-balance sheet arrangements during the period.

COMMITMENTS

On December 22nd, the Company extended its agreement with Cordex until December 31, 2011. The Company has had a relationship with Cordex since September 2007. Cordex designs, initiates and carries out mineral exploration and development activities on behalf of the Company with the objective of identifying, acquiring and exploring new mineral properties and operating exploration programs on the Company's existing portfolio of mineral properties. Cordex and Columbus Gold Corporation share an officer in common. The agreement is exclusive to Columbus Gold and provides that the term may be extended until December 31, 2013. Columbus Gold (U.S.) provides Cordex with general operating capital, exclusive of third party contractor expenses, of up to US\$44,000 per month which includes a monthly management fee to Cordex of US\$12,500.

Further, Cordex is entitled to receive a 2% NSR on any claims that it stakes on behalf of the Company. If claims or mineral rights are identified by Cordex and acquired from third parties, then the Cordex NSR shall be the difference between a 4% NSR and the third party royalty provided, however, it shall be no less than 1% nor greater than 2%. All properties acquired by the Company within two miles of a claim generated by Cordex will fall under an area of influence and become subject to the agreement.

SUBSEQUENT EVENTS

On May 26th, the Company announced after its 2011 Annual General Meeting that its shareholders approved the option agreement to acquire up to a 100% interest in the Paul Isnard gold project and also approved the amended incentive stock option plan allowing the Company to grant up to 7,000,000 options.

CRITICAL ACCOUNTING ESTIMATES

The preparation of consolidated financial statements requires the Company to select from possible alternative accounting principles, and to make estimates and assumptions that determine the reported amounts of assets and liabilities at the balance sheet date and reported costs and expenditures during the reporting period. Estimates and assumptions may be revised as new information is obtained, and are subject to change. The Company's accounting policies and estimates used in the preparation of the consolidated financial statements are considered appropriate in the circumstances, but are subject to judgments and uncertainties inherent in the financial reporting process.

Property acquisition costs and related direct exploration costs may be deferred until the properties are placed into production, sold, abandoned, or written down, where appropriate. The Company's accounting policy is to capitalize exploration costs consistent with Canadian GAAP and applicable guidelines for exploration stage companies. The policy is consistent with other junior exploration companies which have not established mineral reserves objectively. An alternative policy would be to

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

expense these costs until sufficient work has been done to determine that there is a probability a mineral reserve can be established; or alternatively, to expense such costs until a mineral reserve has been objectively established. Management is of the view that its current policy is appropriate for the Company at this time. Based on annual impairment reviews made by management, or earlier if circumstances warrant, in the event that the long-term expectation is that the net carrying amount of these capitalized exploration costs will not be recovered, then the carrying amount is written down accordingly and the write-down charged to operations. A write-down may be warranted in situations where a property is to be sold or abandoned; or exploration activity ceases on a property due to unsatisfactory results or insufficient available funding.

Property acquisition costs and related direct exploration costs may be deferred until the properties are placed into production, sold, abandoned, or written down, where appropriate. The Company's accounting policy is to capitalize exploration costs consistent with Canadian GAAP and applicable guidelines for exploration stage companies. The policy is consistent with other junior exploration companies which have not established mineral reserves objectively. An alternative policy would be to expense these costs until sufficient work has been done to determine that there is a probability a mineral reserve can be established; or alternatively, to expense such costs until a mineral reserve has been objectively established. Management is of the view that its current policy is appropriate for the Company at this time. Based on annual impairment reviews made by management, or earlier if circumstances warrant, in the event that the long-term expectation is that the net carrying amount of these capitalized exploration costs will not be recovered, then the carrying amount is written down accordingly and the write-down charged to operations. A write-down may be warranted in situations where a property is to be sold or abandoned; or exploration activity ceases on a property due to unsatisfactory results or insufficient available funding.

OUTLOOK

The Company is planning a two phase drilling program at Paul Isnard totalling approximately 46,000 feet (14,000 meters). The program is planned to begin in 2011. Drilling on Nevada properties will determine which properties warrant further investigation.

RISKS AND UNCERTAINTIES

The Company is in the mineral exploration and development business and as such is exposed to a number of risks and uncertainties that are not uncommon to other companies in the same business. Exploration for mineral resources involves a high degree of risk, and the cost of conducting programs may be substantial and the likelihood of success is difficult to assess. The Company attempts to mitigate its exploration risk through joint ventures with other companies.

Beyond exploration risk, management is faced with other possible risks which include the following:

Metal Price Risk

The price of gold greatly affects the value of the Company and the potential value of its properties and investments. This, in turn, greatly affects its ability to form joint ventures and the structure of any joint ventures formed.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

Financial Market Risk

The Company is dependent on the equity markets as its sole source of operating working capital and the Company's capital resources are largely determined by the strength of the resource markets and by the status of the Company's projects in relation to these markets, and its ability to compete for the investor support of its projects.

Title Risk

The Company has investigated its right to explore and exploit its properties and, to the best of its knowledge. However, the results of the Company's investigations should not be construed as a guarantee of title.

Value Risk

There is no certainty that the properties which the Company has deferred as assets on its consolidated balance sheet will be realized at the amounts recorded. These amounts should not be taken to reflect realizable value.

Environmental Risk

The Company seeks to operate within environmental protection standards that meet or exceed existing requirements in the country in which the Company operates. Present or future laws and regulations, however, may affect the Company's operations. Future environmental costs may increase due to changing requirements or costs associated with exploration and the developing, operating and closing of mines. Programs may also be delayed or prohibited in some areas. Although minimal at this time, site restoration costs are a component of exploration expenses.

Equipment and Service Availability

There is no certainty that the drilling equipment and crew services which the Company requires to complete its exploration programs will be available when needed. The Company primarily operates in Nevada, which is one of the busiest exploration areas in North America. Consequently, third party drill contractors are in high demand thus have limited availability.

Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, then actual results may vary materially from those described on forward-looking statements. The Company has not completed a feasibility study on any of its properties to determine if it hosts a mineral resource that can be economically developed and profitably mined.

The Company will be adopting the new IFRS accounting policies effective as outlined below:

International Financial Reporting Standards (IFRS) changeover plan

The Accounting Standards Board of the CICA announced on February 13, 2008 that Canadian generally accepted accounting principles for publicly accountable enterprises will be replaced with

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

International Financial Reporting Standards (IFRS) for fiscal years beginning on or after January 1, 2011.

Implementing IFRS will have an impact on accounting, financial reporting and supporting IT systems and processes. It may also have an impact on taxes, contractual commitments involving GAAP-based clauses (including debt covenants), long-term employee compensation plans and performance metrics. Accordingly the Company's implementation plan includes measures to provide extensive training to key finance personnel, to review relevant contracts and agreements and to increase the level of awareness and knowledge amongst management, the Board and Audit Committee and investor relations. It is anticipated that additional resources will be engaged to ensure the timely conversion to IFRS.

FINANCIAL AND OTHER INSTRUMENTS

Fair value estimates of financial instruments are made in accordance with the new CICA Financial Instruments Standards for recognition, measurement and disclosure of financial instruments. Changes in assumptions can significantly affect estimated fair values.

The carrying value of cash and cash equivalents, term deposits, marketable securities, receivables, accounts payable and accrued liabilities and advances to and from related parties approximate their fair value because of the short-term nature of those instruments.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The information provided in this report, including the financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying consolidated financial statements.

COLUMBUS GOLD CORPORATION
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTH PERIOD ENDED MARCH 31, 2011

DISCLOSURE AND INTERNAL CONTROLS

Disclosure controls and procedures have been established to provide reasonable assurance that material information relating to the Company is made known to management, particularly during the period in which annual filings are being prepared. Furthermore, internal controls over financial reporting have been established to ensure the Company's assets are safeguarded and to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with Canadian GAAP.

Columbus Gold Corporation

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the Period Ended March 31, 2011

Unaudited

1. Nature of Operations

Columbus Gold Corporation (the “Company” or “Columbus Gold”) was incorporated on May 14, 2003 under the laws of the Province of Saskatchewan, Canada and continued on to British Columbia, Canada on December 29, 2003. The Company is currently listed on the TSX Venture Exchange (the “TSX” or “Exchange”) classified as a Tier 2 mining issuer.

Its principal business activities are the exploration and development of mineral properties. Most of the Company’s mineral properties are currently located in the United States with the recent signing of an option to acquire a property in French Guiana. The Company is in the process of exploring and developing its mineral properties, but has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for mineral properties are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production. To date, the Company has not received any revenue from mining operations and is considered to be in the exploration stage.

The ability of the Company to continue as a going concern is dependent on its ability to raise additional debt or equity to fund ongoing costs of operations and/or secure new or additional partners in order to advance its projects. At March 31, 2011, the Company had working capital of \$3,841,384 (September 30, 2010 - \$1,867,620) and an accumulated deficit of \$10,550,069 (September 30, 2010 - \$9,798,167).

2. Significant Accounting Policies

These unaudited interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and note disclosures required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal and recurring accruals) considered necessary for fair presentation have been included.

These interim financial statements have been prepared by management in accordance with the accounting policies described in the Company’s annual financial statements for the year ended September 30, 2010. For further information, refer to the Company’s financial statements and footnotes thereto for the year ended September 30, 2010.

3. Investment in Columbus Silver

Columbus Silver Corporation was spun out of Columbus Gold in September 2008. At March 31, 2011, the Company owns 4,020,000 common shares (Sept. 2010 – 4,020,000 common shares) of Columbus Silver. The Company recorded its investment in Columbus Silver on a consolidated basis until August 28, 2009 at which point the Company’s ownership interest declined from 35.7% to 18.5% as a result of share issuances by Columbus Silver. Commencing August 28, 2009, the Company’s investment in Columbus Silver was determined to have converted from a controlled

Columbus Gold Corporation

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the Period Ended March 31, 2011

Unaudited

entity to an equity investment. The Company's interest in Columbus Silver was diluted as a result of an equity financing completed by Columbus Silver on August 28, 2009.

As the Company still exerts significant influence over Columbus Silver, Columbus Gold accounts for its investment using the equity method. The carrying value of the investment in Columbus Silver account was written down to zero at December 31, 2010. In addition, two convertible notes held by Columbus Gold matured on August 31, 2010 and two new notes were issued the details of which are described below.

On September 1, 2010, a promissory note with a face value of \$845,209 was issued carrying simple interest of 5% per annum and maturing on August 31, 2012. The note is convertible at the option of the Company into common shares of Columbus Silver at \$0.10 per share. Any accrued interest can only be converted into common shares at the market price on the date of conversion, per TSXV policy. The Company recorded the fair value of the note at \$506,019 and the fair value of the conversion option at \$339,190. At March 31, 2011, the Company recorded \$10,565 (2009 prior note - \$76,445) in accrued interest and recorded the accreted value of the new promissory note to be \$569,204 (2009 prior note - \$708,797), inclusive of accretion income totaling \$52,252 relating to the debt discount calculated using the effective interest method. The effective interest rate was calculated to be 30%.

3. Investment in Columbus Silver (continued)

On September 1, 2010, a second promissory note with a face value of US\$540,465 was issued carrying simple interest of 5% per annum and maturing on August 31, 2012. The note is convertible at the option of the Company into common shares of Columbus Silver at C\$0.10 per share. Any accrued interest can only be converted into common shares at the market price on the date of conversion, per TSXV policy. The Company recorded the fair value of the note at \$331,686 and the fair value of the conversion option at \$225,042. At March 31, 2011, the Company has recorded \$13,628 (2009 prior note - \$66,018) in accrued interest and recorded the accreted value of the promissory note at \$379,362 (2009 prior note - \$356,149), inclusive of accretion income totaling \$41,188 relating to the debt discount calculated using the effective interest method. The effective interest rate was determined to be 30%.

At March 31, 2011 the fair value of the conversion option of the new convertible notes issued in September 2010 decreased by \$51,185. The estimated fair value of the conversion option was determined using a Black-Scholes option pricing model with the following assumptions:

Expected dividend yield	Nil
Expected price volatility	125%
Risk free interest rate	1.72%
Expected life of options	1.41 years

Both of these notes receivable are recorded separately from the equity investment in Columbus Silver. At March 31, 2011, the Company held a 12.5% direct interest and a fully diluted interest of 26.7% assuming the convertible notes were converted into shares of Columbus Silver.

Columbus Gold Corporation

(An Exploration Stage Company)

Notes to the Consolidated Financial Statements

For the Period Ended March 31, 2011

Unaudited

4. Available-for-sale Investments

	Number of Shares	March 31, 2011	Number of Shares	September 30, 2010
Portage Minerals Inc. (TSX-V)	Nil	\$0	110,000	\$ 1
Piedmont Mining Corp. (OTCBB)	6,285,715	94,285	6,285,715	142,407
Sniper Resources Ltd. (TSX-V)	408,337	114,334	832,837	208,209
		\$ 208,619		\$ 350,617

All of the shares are classified as available for sale and are carried at fair value based on their closing trading price at March 31, 2011, with the exception of those which are private companies, which are carried at cost. During the period, all 110,000 shares of Portage were sold for proceeds of \$12,642 for a gain of \$541. There is an ending unrealized gain balance of \$69,732 in Other Comprehensive Income which is down from the unrealized gain of \$138,045 at Sept. 30, 2010.

5. Term Deposits

Utah Clipper / Crestview Properties

In December 2007, the Company entered into an agreement (the “Barrick Agreement”) with Barrick Gold Exploration Inc. (“Barrick”), a subsidiary of Barrick Gold Corporation, to explore and develop the Utah Clipper and Crestview properties. Under the terms of the Barrick Agreement, Barrick can earn a 60% interest in the two properties by undertaking staged work expenditures totaling US\$6,000,000 (US\$1,000,000 incurred) over a six year period. During the year, Barrick terminated the Barrick Agreement.

7. Mineral Properties (continued)

On September 20, 2010, the Company entered into an agreement Navaho Gold Pty Ltd. (“Navaho”) wherein Navaho can earn an initial 51% interest in the Utah Clipper and Crestview Properties by incurring US\$3,000,000, of which US\$200,000 is mandatory in year one, in exploration expenditures by September 20, 2015, paying US\$20,000 (received) by December 24, 2010 and by issuing US\$160,000 in common shares of Navaho by September 20, 2015. Navaho can earn an additional 19% interest by completing a bankable feasibility study or by making an additional US\$10,000,000 in expenditures within 4 years of attaining a 51% interest.

Dutch Flat Property

On July 2, 2006, the Company entered into an earn-in agreement with Piedmont Mining Company, Inc. (“Piedmont”) which will allow Piedmont to earn a 51% interest in the Dutch Flat property by paying US\$35,000 (paid) upon signing of the agreement and by incurring exploration expenditures of US\$2,000,000 over 5 years (approximately US\$530,000 incurred to date). Piedmont can increase its ownership interest to 70% by funding the completion of a positive feasibility study.

The Company completed an agreement wherein it accepted 6,285,715 (2009 – 500,000) common shares of Piedmont in settlement of the debt owing of US\$145,508 for exploration expenditures incurred on behalf of Piedmont in 2007. The combined share issuances have been accepted as full settlement of the debt and all accrued interest.

Golden Mile Property

On October 21, 2007, the Company entered into an option agreement with Portage Minerals Inc. (“Portage”) wherein Portage can earn an initial 60% interest in the Golden Mile property by incurring US\$2,500,000 in exploration expenditures and issuing to the Company 100,000 common shares (60,000 shares received) of Portage by December 31, 2012. Portage can increase its interest to 70% by completing a positive feasibility study. During the year ended September 30, 2010, the Company amended its agreement with Portage by granting a one year extension on the expenditure requirement in exchange for 50,000 common shares of Portage. Also, the Company issued 110,344 common shares of the Company in settlement of US\$25,000 under a purchase agreement dated July 7, 2006. During the current quarter, under the same agreement, an additional US\$75,000 was paid in the form of 91,943 shares to complete the acquisition of the property. Concurrently, there was an impairment charge of US\$75,000 taken to write it down to zero.

7. Mineral Properties (continued)

Chert Cliff Property

On April 11, 2006 and amended on October 5, 2007, the Company entered into a lease agreement (the "Platte River Lease") with Platte River Gold (US) Inc. ("Platte River") whereby the Company has leased the Chert Cliff Property to Platte River for a term of 20 years. The Platte River Lease is renewable for additional and successive terms of 10 years provided Platte River is engaged in active exploration and development and the lease payments are doubled. The initial term of annual lease payments progressively increase from US\$5,000 (paid) on signing of the Platte River Lease to US\$8,500 (1st, 2nd and 3rd anniversaries paid) due on the 20th anniversary of signing. Additional consideration to the Company was the issuance of US\$100,000 in common shares of Platte River Gold Inc., parent corporation of Platte River, within 36 months of the effective date of the Platte River Lease. During the year ended September 30, 2009, Platte River optioned its interest in Chert Cliff to Golden Predator and the Company received 25,000 common shares of Platte River Gold Inc., 51,859 common shares of EMC Metals Corp. and 12,965 common shares of Golden Predator Royalty and Development Corp. in settlement of this provision. As part of this settlement, the Company also agreed to extend the deadline for the expenditure of US\$275,000 (incurred) on the property to October 11, 2010.

Further, the Company will maintain NSR royalties on the Chert Cliff Property that vary between 2% - 3% depending on the claim. The Company has a \$nil carrying value for this property as the option payments it has received to date exceed the previously capitalized expenditures on the property.

The Company has a \$nil carrying value for this property as the option payments it has received to date exceed the previously capitalized expenditures on the property.

Del Oro Property

On July 18, 2007, as amended November 13, 2008, the Company entered into an agreement with Ventura Gold Corp. ("Ventura"), which allows Ventura to earn an option to acquire an initial 51% interest in the Del Oro Property by paying US\$70,000 (US\$50,000 paid via issuance of 125,418 common shares of Ventura and the balance in cash) to Columbus Gold and by incurring US\$2,000,000 in exploration expenditures within a five year period, including US\$200,000 by December 31, 2009. The Company entered into an extension agreement with International Minerals Ltd., the successor company of Ventura Gold Corp., wherein the Company agreed to extend the period for completion of the mandatory \$200,000 to June 30, 2011 in exchange for a US\$20,000 bonus payment (received) and the immediate payment of US\$40,000 (received) to the Company in lieu of exploration expenditures on the property.

The Company has a \$nil carrying value for this property as the option payments it has received to date exceed the previously capitalized expenditures on the property.

Four Metals Property

On July 28, 2009, the Company entered into two option agreements with White Cloud Resources LLC ("White Cloud") wherein White Cloud can earn a 100% interest in the property. The aggregate payments required under the agreements are as follows:

Overland Pass / Linka / Pete's Summit / Guild Properties

The Company entered into joint venture option agreements on October 3, 2006 with Sniper Resources Ltd. ("Sniper") on the Guild, Overland Pass, Linka and Pete's Summit properties in Nevada. The agreements were subsequently amended as follows:

Guild

Sniper can earn a 51% interest by paying the Company US\$17,500 (paid) in cash, US\$32,500 (paid) in cash by April 30, 2007, issuing 383,500 common shares of Sniper (233,500 shares received) and by incurring US\$2,000,000 in exploration expenditures by December 31, 2012, including US\$200,000 of mandatory expenditures by December 31, 2011.

Overland Pass

Sniper can earn a 51% interest by paying the Company US\$12,500 (paid) in cash, US\$37,500 (paid) in cash by April 30, 2007, issuing 333,500 common shares of Sniper (183,500 shares received) and by incurring US\$2,000,000 in exploration expenditures by December 31, 2012, including US\$350,000 of mandatory expenditures by December 31, 2011 (incurred).

Linka and Pete's Summit

Sniper had the option to earn a 51% interest in both the Linka and Pete's Summit properties by paying the Company US\$17,500 (paid) in cash, US\$32,500 (paid) in cash by April 30, 2007, issuing 83,500 common shares of Sniper (received) and by incurring US\$2,000,000 in exploration expenditures by October 3, 2012, including US\$200,000 of mandatory expenditures by October 3, 2009. Of this, only US\$123,502 was spent and during the year, the Company received 332,337 common shares of Sniper in settlement of US\$75,000 in unspent mandatory property expenditures. Sniper terminated the option agreement after this payment.

In addition, the Company abandoned the Linka property during fiscal 2009.

7. Mineral Properties (continued)

Summit Property

Effective June 1, 2007, the Company entered into an agreement with Agnico-Eagle (USA) Limited (“Agnico”) which will allow Agnico to earn a 51% interest in the Summit Property by incurring exploration expenditures of US\$3 million over 5 years, with minimum expenditures of US\$500,000 in the first two years. Agnico will make cash payments totaling US\$150,000 over 3 years (received). Agnico can increase its ownership interest to 70% by completing a feasibility study. Agnico will be the operator during the earn-in phase of the agreement and upon formalization of a joint venture.

White Horse Flats`

On September 20, 2010, the Company entered into an agreement Navaho wherein Navaho can earn an initial 51% interest in the White Horse Flats Property by incurring US\$3,000,000 in exploration expenditures, of which US\$250,000 is mandatory, by September 20, 2015, paying US\$20,000 (received) by December 24, 2010 and by issuing US\$160,000 in common shares of Navaho by September 20, 2015. Navaho can earn an additional 19% interest by completing a bankable feasibility study or by making an additional US\$10,000,000 in expenditures within 4 years of attaining a 51% interest.

Stevens Basin

On September 20, 2010, the Company entered into an agreement with Navaho wherein Navaho can earn an initial 51% interest in the Stevens Basin Property by incurring US\$3,000,000 in exploration expenditures, of which US\$250,000 is mandatory, by September 20, 2015, paying US\$20,000 (received) by December 24, 2010 and by issuing US\$160,000 in common shares of Navaho by September 20, 2015. Navaho can earn an additional 19% interest by completing a bankable feasibility study or by making an additional US\$10,000,000 in expenditures within 4 years of attaining a 51% interest.

Other Properties

The Company has additional exploration properties in Nevada including Eastside, Weepah, Robison Mountain, White Canyon (which is being leased to Allied Nevada Gold Corp.), Scraper, Bolo, Winnemucca Mountain, White Horse North, Red Hills, Laura and Clara Moro.

Impairment of Mineral Properties

At December 31, 2010, management reviewed the carrying values of its mineral property interests. Indications of impairment were identified on certain properties due to the fact that the Company had no immediate plans to conduct further exploration activities or the property was abandoned. Impairment charges totaling \$76,313 was recorded at Golden Mile. At December 31, 2010, no additional impairment was deemed necessary.

Balance, as at March 31, 2010	4,916,500	\$0.49	3.07 yrs	\$0.49

(1) Beginning options outstanding number includes 300,000 options that were previously erroneously thought to have expired.

During the period ended December 31, 2010, the Company granted 1,208,500 incentive stock options to directors, officers and consultants of the Company at \$0.50 per share until December 6, 2015.

Of the options granted in December 2010, 1,138,500 were granted under a new share purchase option plan which is subject to a shareholder vote to be held in May 2011. The Company has chosen to amortize the fair value derived by the Black Scholes option pricing model of \$430,005 over the period from grant to shareholder vote in May at which point the options become exercisable. The Company has recognized \$289,391 or one half of the fair value as stock based compensation at March 31, 2011 and the remainder will be expensed over the next five months.

The remaining 70,500 options were granted under the old plan and the total fair value of the options granted was \$26,639 with \$2,422 being recorded in the Company's accounts as stock based compensation at December 31, 2010. The Company amortized \$7,265 during the quarter.

9. Supplemental Cash Flow Information

The significant non-cash investing or financing activities during the period were:

The Company amortized \$222,666 in stock based compensation during the three month period.

10. Commitments

On December 22nd, the Company extended its agreement with Cordex until December 31, 2011. The Company has had a relationship with Cordex since September 2007. Cordex designs, initiates and carries out mineral exploration and development activities on behalf of the Company with the objective of identifying, acquiring and exploring new mineral properties and operating exploration programs on the Company's existing portfolio of mineral properties. Cordex and Columbus Gold Corporation share an officer in common. The agreement is exclusive to Columbus Gold and provides that the term may be extended until December 31, 2013. Columbus Gold (U.S.) provides Cordex with general operating capital, exclusive of third party contractor expenses, of up to US\$44,000 per month which includes a monthly management fee to Cordex of US\$12,500.

Further, Cordex is entitled to receive a 2% NSR on any claims that it stakes on behalf of the Company. If claims or mineral rights are identified by Cordex and acquired from third parties, then the Cordex NSR shall be the difference between a 4% NSR and the third party royalty provided, however, it shall be no less than 1% nor greater than 2%. All properties acquired by the Company within two miles of a claim generated by Cordex will fall under an area of influence and become subject to the agreement.

11. Related Party Transactions (continued)

At March 31, 2011, a total of \$10,500 (September 30, 2010 - \$176,836 receivable) was paid to Cordex, a company with an officer in common with Columbus Gold (U.S.) Corp., for exploration expenditures on the Company's mineral properties.

At March 31, 2011, a total of \$12,000 (September 30, 2010 - \$19,500) was owing to directors of the Company for director fees.

These transactions were in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Refer to note 3.

The following related party transactions occurred during the year ended March 31, 2010:

	Corporate Administration Fees	Consulting Fees	Management Fees	Director Fees
Don Gustafson (Director)	\$ -	\$ -	\$ -	\$ 6,000
Perennial Capital Corp. ⁽²⁾ (Company with an officer in common)	-	-	\$30,000	6,000

Cordilleran Exploration Co. ("Cordex") ⁽³⁾ (Company with an officer in common)	-	\$43,283	-	-
HRG Management Ltd. ⁽⁴⁾ (Company with 2 former directors in common)	8,927			
Balance at December 31, 2009	\$8,927	\$43,283	\$30,000	\$24,000

12. Paul Isnard Option Agreement

Columbus Gold acquired the option to earn 100% interest in the Paul Isnard gold project in November 2010. The project, based in French Guiana (a Department of France) includes the Montagne d'Or gold deposit. Pursuant to the option agreement, the Company has the option of earning directly into the Paul Isnard project or indirectly by earning into SOTRAPMAG. To earn an initial 51% in the Paul Isnard project, the Company will initially provide the vendor 30% of its issued and outstanding shares, after issue, at the close of the transaction. On the one year anniversary of this issuance, the Company will issue another 10% of its outstanding shares and then on the second anniversary, another 9% of its shares such that the vendor will own 49% of the Company at the end of 2 years. Columbus Gold must also make minimum exploration expenditures of \$5 million by the end of the second year. The Company can then elect to earn an additional 49% interest for a total

interest of 100% in the project subject to making additional expenditures on the property and providing a Bankable Feasibility Study.

The agreement governing the terms of the proposed acquisition contains additional conditions precedent including, among other things: obtaining a positive title opinion in connection with the Paul Isnard property; the completion of a US\$2 million fundraising by Columbus Gold; non-objection by the French Government; and stock exchange, shareholder, and regulatory approvals. Columbus Gold commissioned an updated 43-101 resource estimate at Montagne d'Or which was filed on SEDAR in January 2011.

On March 10, 2011, the Company announced that the government of France did not object to its proposed acquisition of Paul Isnard and that it had satisfied its commitment to complete a \$2 million fundraising by shares that were issued since December.

13. Subsequent Events

On May 26th, the Company announced after its 2011 Annual General Meeting that its shareholders approved the option agreement to acquire up to a 100% interest in the Paul Isnard gold project and also approved the amended incentive stock option plan allowing the Company to grant up to 7,000,000 options.
